MAINTENANCE PRODUCTS, TO CLEAN AND  
PROTECT THE ELEMENTS OF YOUR VESSEL

## **A WORD FROM THE FOUNDER**

With more than 20 years of expertise and tried and tested products, our polyvalent range has managed to seduce business partners and customers, offering users several smart appropriate solutions to technological evolutions and high quality service.

The Clean Boat Range - CLEAN BOAT Multi-Purpose Cleaner & Clean Boat Special Careening – is an efficient & easy to use solution for each and every one. Our commitment to Eco-friendly products since 1994 made the Clean Boat Range different from our competitors right from the very beginning.

Our pledge for innovation and our boldness has made Clean Boat one of the market's leaders with more than 130 000 litres produced every year in France.

Clean Boat is still committed to the human dimension of its structure and its French roots, nevertheless, we have undertaken a development agenda in foreign countries during the last few years. Strong growth drivers allow us to offer our products in Europe, but also in America, Africa, Asia and Oceania.

The development of our brand image will be optimized thanks to our presence on social networks, we intend to keep our dynamic interactions with our customers as a central pillar of our communication. Giving us the possibility to rapidly answer our customers interrogations and to pass on precious information such as user testimonials and feedback.

Our ambition is to improve our position on the markets that we are already working in, but also to expand to other countries.

Motivating projects for our team and our partners

## MULTI-PURPOSE CLEANER

CLEANS - REMOVES STAINS - DÉGREASES

## SPECIAL CAREENING

WHITENS - ELIMINATES RUST- PASSIVATES

CLEAN BOAT Multi-Purpose Cleaner is a revolutionary concentrated mono-product created for the nautical market. This product's incredible performance has been proven by professional use for the last 23 years. The 98% biodegradable, organic based formula has turned this product into a must-have for the maintenance of your boat. The exceptional versatility of CLEAN BOAT Multi-Purpose cleaner allows you to replace numerous products that take up too much storage space. It's efficiency gives back radiance to all the treated surfaces. Simply spray the diluted product on dry surface, let it sit for a few seconds and rinse with clear water. It's ability to remove efficiently the static film from your surfaces extends the durability of the effects of the product, it leaves a waterproofing coat that protects against environmental pollution. The formula is alkaline-based with a basic pH, it doesn't alter the UV protector, the seals and electric connectors.

CLEAN BOAT Special Careening is a revolutionary product created for the nautical market. This product's incredible performance has been proven by professional over the period of 10 years. The 98% biodegradable, organic based formula has turned this product into a must-have for the restoration of your boat. The efficiency and the acid base of this product removes rust and restores the whiteness to all the treated surfaces. Simply apply the product with a brush or spray on a dry surface, let it sit for a few seconds and rinse thoroughly with clear water. CLEAN BOAT Special Careening also removes effectively all types of organism from your hull or outdrive (algae, shells, etc...). The passivating action of this product slows down the oxidation process of the treated surfaces and extends the protective effects of the product. It's ability to remove efficiently the static film from your surfaces extends the durability of the effects of the product, it leaves a waterproof coating that protects against environmental pollution.

## MULTI-PURPOSE CLEANER

MAINTENANCE OF YOUR DECK AND HULL

### DECK AND HULL

Whether your boat is moored at the quay, out at sea or on a lake, whether your boat is made of wood, metal or plastic fibres, it is constantly exposed to attacks from pollution or environmental aggression. The constant attack of water and its corrosive effects, its salinity, organisms or simple weather aggression create rust, limestone and dirt stains on your hull and deck.

Numerous aggressions which require good maintenance and care.

### RESTORATION AND MAINTENANCE

#### Restoration of your deck and hull.

**Dilution:** 1:10 of Clean Boat Multi-Purpose Cleaner in water. 10%.

**How to use:** Spray the diluted solution onto a dry surface commencing from the bottom towards the top. Let it sit for 30 seconds to 1 minute, spread the product with a sponge or a soft brush (or a deck broom) for a uniformed result. The pollution and dirt of the surface that was altering the aspect will be separated. Use clear water without pressure to rinse and scrub softly to eliminate all the residue of dirt. Stop rinsing when the waterproof coating has set in (water slips away).

**Routine care:** 20 to 40ml of Clean Boat Multi-Purpose Cleaner in a mop bucket. Scrub and rinse thoroughly with fresh water.

## MULTI-PURPOSE CLEANER

### MAINTENANCE OF UPHOLSTERY

#### UPHOLSTERY IN THE MARINE INDUSTRY

Almost every vessel possesses some upholstery items. Seats & pillows that are generally made in leatherette. We can also come across cloth and vinyl accessories for the outside, usually used for flexible exterior hoods.

Bad weather, salt, humidity and exposure to marine pollution can create an accumulation of dirt and moisture marks on the upholstery.

#### RESTORATION AND MAINTENANCE

**Restore your boats upholstery.**

**Dilution:** 1:10 of Clean Boat Multi-Purpose Cleaner in water. 10%.

**How to use:** Spray the diluted solution onto a dry surface commencing from the bottom towards the top. Let it sit for 30 seconds to 1 minute, spread the product with a sponge or a soft brush (or a deck broom) for a uniformed result. The pollution and dirt of the surface that was altering the aspect will be separated. Use clear water without pressure to rinse and scrub softly to eliminate all the residue of dirt. Stop rinsing when the waterproof coating has set in (water slips away).

**Routine care:** 20 to 40ml of Clean Boat Multi-Purpose Cleaner in a mop bucket. Scrub and rinse correctly with fresh water.

## MULTI-PURPOSE CLEANER

### MAINTENANCE OF INFLATABLE CRAFTS

#### INFLATABLE CRAFTS

A rigid-hulled inflatable boat, (RHIB) or rigid-inflatable boat (RIB) is a lightweight but high-performance and high-capacity boat constructed with a solid, shaped hull and flexible tubes at the gunwale. The design is stable and seaworthy. The inflatable collar surround allows the vessel to maintain buoyancy if a large quantity of water is aboard due to bad sea conditions. The RIB is a development of the inflatable boat. These crafts are built in PVC, Polyurethane, Neoprene or Hypalon.

Bad weather and impacts on the flexible tubes create a build up of dirt, black marks and mold on the surface.

#### RESTORATION AND MAINTENANCE

##### Restoration of your inflatable crafts.

**Dilution:** 1,5:10 of Clean Boat Multi-Purpose Cleaner in water. 15%.

**How to use:** Spray the diluted solution onto a dry surface commencing from the bottom towards the top. Let it sit for 30 seconds to 1 minute, spread the product with a sponge or a soft brush (or a deck broom) for a uniformed result. The pollution and dirt of the surface that was altering the aspect will be separated. Use clear water without pressure to rinse and scrub softly to eliminate all the residue of dirt. Stop rinsing when the waterproof coating has set in (water slips away).

**Routine care:** 20 to 40ml of Clean Boat Multi-Purpose Cleaner in a mop bucket. Scrub and rinse correctly with fresh water.

## MULTI-PURPOSE CLEANER

MAINTENANCE OF WINDOWS AND PLEXIGLAS

### WINDOWS AND PLEXIGLAS

Glass and plexiglas accessories are numerous on boats, you can find these materials on portholes, windshields and doors. They have to be taken good care of regularly to keep in perfect condition.

Bad weather, pollution and salt can create a build up of dirt, limescale and quickly deteriorate these surfaces.

### RESTORATION AND MAINTENANCE

#### Restoration of windows and Plexiglas.

**Dilution:** 1:10 of Clean Boat Multi-Purpose Cleaner in water. 10%.

**How to use:** Spray the diluted solution onto a dry surface commencing from the bottom towards the top. Let it sit for 30 seconds to 1 minute, spread the product with a sponge or a soft brush (or a deck broom) for a uniformed result. The pollution and dirt of the surface that was altering the aspect will be separated. Use clear water without pressure to rinse and scrub softly to eliminate all the residue of dirt. Stop rinsing when the waterproof coating has set in (water slips away). Use a shammy leather to wipe off the water.

**Routine care:** 3:100 dilution of Clean Boat Multi-Purpose Cleaner in water. Scrub and rinse correctly with fresh water.

## MULTI-PURPOSE CLEANER TEAK MAINTENANCE

### TEAK

Teak is a tropical hardwood which has a range of colours from bronze to dark veined beige. Teak is a precious and rot-proof wood with stiff/straight fibres and a smooth finish. The high density and strength of this material has made this wood essential for deck construction.

When teak is exposed to bad weather and pollution, it's original colour darkens and gradually becomes grey and rough.

### RESTORATION AND MAINTENANCE

#### Teak restoration.

**Dilution:** 1:10 of Clean Boat Multi-Purpose Cleaner in water. 10%.

**How to use:** Spray the diluted solution onto a dry surface commencing from the bottom towards the top. Let it sit for 30 seconds to 1 minute, spread the product with a soft brush (or a deck broom) in the same direction as the grain of the wood surface for a uniformed result. The pollution and dirt of the surface that was altering the aspect will be separated. Use clear water without pressure to rinse and scrub softly to eliminate all the residue of dirt.

**Routine care:** 20 to 40ml of Clean Boat Multi-Purpose Cleaner in a mop bucket. Scrub and rinse correctly with fresh water.

## MULTI-PURPOSE CLEANER

### CLEANING FENDERS AND BUOYS

#### FENDERS AND BUOYS

A fender is a bumper used to absorb the kinetic energy of a boat or vessel berthing against a jetty, quay wall or other vessel. These elements are really precious when operating a vessel inside a port and are made of deformable materials like rubber or plastic.

Bad weather and impacts create an accumulation of marine pollution, dirt and black marks.

#### RESTORATION AND MAINTENANCE

##### Restoration of fenders and buoys.

**Dilution:** 1:10 of Clean Boat Multi-Purpose Cleaner in water. 10%.

**How to use:** Spray the diluted solution onto a dry surface commencing from the bottom towards the top. Let it sit for 30 seconds to 1 minute, spread the product with a sponge or a soft brush (or a deck broom) for a uniformed result. The pollution and dirt of the surface that was altering the aspect will be separated. Use clear water without pressure to rinse and scrub softly to eliminate all the residue of dirt. ## MULTI-PURPOSE CLEANER

### MAINTENANCE OF SAILS AND CANOPIES

#### SAILS AND CANOPIES

Keeping sails and canopies clean is not only for the beauty of the vessel, it also protects and prolongs their life span and performance.

Using Clean Boat Multi-Purpose Cleaner on your sails helps maintain the structure without damaging the seams, the process enables a deep clean of the dirty fibres engrained by the salty sea spray.

#### RESTORATION AND MAINTENANCE

##### Restoration of sails and canopies.

**Dilution:** 1:10 of Clean Boat Multi-Purpose Cleaner in water. 10%. Use hot water for a better result.

**How to use:** Spray the diluted solution onto a dry surface commencing from the bottom towards the top. Let it sit for 30 seconds to 1 minute, spread the product with a sponge or a soft brush (or a deck broom) for a uniformed result. The pollution and dirt of the surface that was altering the aspect will be separated. Use clear water without pressure to rinse and scrub softly to eliminate all the residue of dirt. ## MULTI-PURPOSE CLEANER GREASE REMOVER FOR ENGINES AND BILGES

### ENGINES AND TECHNICAL WORK AREA

The bilge of a ship is the space reserved for storing goods and technical tools. The engine room (or machinery room) is the place which enables access to the craft's engines.

The dirt and grime usually encountered in the bilges are mainly hydrocarbons such as oil, diesel, grease and stagnant water where microorganisms proliferate. The main culprit being salt for outboard engines and jet skis.

### RESTORATION AND MAINTENANCE

**Removes grease from bilges and engines.**

**Dilution:** 2,5:10 of Clean Boat Multi-Purpose Cleaner in water. 25%.

**How to use:** Spray the diluted solution onto a dry surface commencing from the bottom towards the top. Let it sit for 30 seconds to 1 minute, spread the product with a sponge or a brush for more accuracy on engines. The oil, grease and dirt of the surface that was altering the aspect will be separated. Use clear water without pressure to rinse and scrub softly to eliminate all the residue of dirt. Stop rinsing when the waterproof coating has set in (water slips away).

**Pro tip:** Please make sure that you are in a suitable area to permit the suction of the dirty liquid.

## SPECIAL CAREENING RUST REMOVAL

### METAL IN THE MARINE INDUSTRY

Metal is used a lot in the marine industry, for aesthetical and technical matters. Metal can be damaged and rust when exposed to bad weather conditions and salt water.

Without routine maintenance, rust can appear on the surface of all metal surfaces and create a rusty residue on the hull of your deck.

### RESTORATION AND MAINTENANCE

#### Treatment of rusty surfaces.

**Dilution:** Clean Boat Special Careening is a ready to use product.

**How to use:** Apply the product with a brush onto a dry surface commencing from the bottom towards the top. Let it sit for 30 seconds to 1 minute, spread the product with a sponge or a brush for more accuracy. The product will destroy the rust from all surfaces. Rinse thoroughly with clear water, 60 bar high pressure water pump can be used, scrub softly to eliminate all residue. Stop rinsing when the waterproof coating has set in (water slips away). After these few steps, a quick clean with Clean Boat Multi-Purpose cleaner will insure an even better protection.

**Pro tip:** If you use this product on a boat placed on a trailer, please keep in mind that you have to rinse the trailer before applying the product; since you have to use the product on dry surface, the presence of water will cancel its effects, your trailer will be protected.

## SPECIAL CAREENING YELLOW VEIL REMOVER FOR HULLS

### GELCOAT

Gelcoat is a resin based thermosetting substance, used for high precision finish and protection of composite material's visible surface often made of various fibres. Gelcoat was specially designed for long lasting protection of materials and are widely used in the construction of boat hulls.

Without regular maintenance, the exposure to marine pollution causes a phenomena which colours the hull yellow near the waterline.

### RESTORATION AND MAINTENANCE

#### Treatment of your yellowed hull.

**Dilution:** Clean Boat Special Careening is a ready to use product.

**How to use:** Apply the product with a brush onto a dry surface commencing from the bottom towards the top. Let it sit for 30 seconds to 1 minute, spread the product with a sponge or a brush for more accuracy. The product will destroy the rust from all surfaces. Rinse thoroughly with clear water, 60 bar high pressure water pump can be used, scrub softly to eliminate all residue. Stop rinsing when the waterproof coating has set in (water slips away). ## SPECIAL CAREENING

REMOVAL OF SHELLFISH AND ALGAE

### SHELLFISH BUILD-UP

Numerous shellfish like barnacle, some small crustaceans, attach themselves to sterndrives and hulls. They produce a strong sticky paste, essentially made of protein.

This build up is undesirable because it creates excessive weight and a lot of friction, which slows down the vessel.

### RESTORATION AND MAINTENANCE

**Removal of organisms, shells and algae.**

**Dilution:** Clean Boat Special Careening is a ready to use product.

**How to use:** Apply the product with a brush onto a dry surface, from bottom to top. For cluttered hulls and sterndrives, use a spray bottle. Let it sit for 1 to 2 minutes, the deeply ingrained shells and barnacles will dry, come loose and fall down. Rinse thoroughly with clear water, 60 bar high pressure water pump can be used to eliminate all residue. After these few steps, a quick clean with Clean Boat Multi-Purpose cleaner will insure an even better protection.

**Pro tip:** If you use this product on a boat placed on a trailer, please keep in mind that you have to rinse the trailer before applying the product; since you have to use the product on a dry surface, the presence of water will cancel its effects, your trailer will be protected.
